#### **Description**

The project is a three-story building being constructed on a plot in the Municipality of Lakatamia, with easy access to various destinations.

The building consists of three floors with a total of 14 apartments. The first floor has 6 one-bedroom apartments, while the second and third floors contain 8 two-bedroom apartments.

The apartments feature spacious living and dining areas, kitchens, large bedrooms, and extensive balconies. The bathrooms are fully equipped according to the architectural plans.

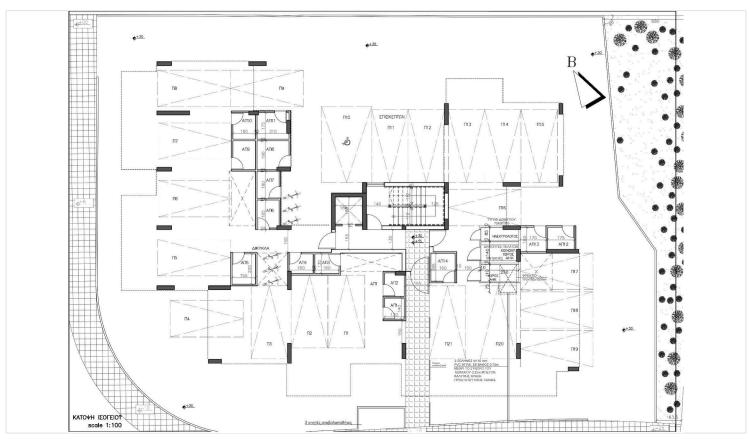

All apartments have an Energy Performance Certificate A, with provisions for electric heating units and air conditioning installations. Additionally, there is a provision for the installation of a photovoltaic system on the roof by the buyers.

The property offers a high quality of life, combining modern design, sustainability, and functionality.
