Description

This modern project features eight spacious one- and two-bedroom apartments, each designed with large verandas, a covered parking space, and a storage room. Situated in the peaceful neighborhood of Makedonitissa, the building combines style, functionality, and sustainability. The luxurious design includes a refined lobby with secure pin-access gates, while a photovoltaic system powers communal electricity. Two-bedroom apartments also benefit from private photovoltaic systems.

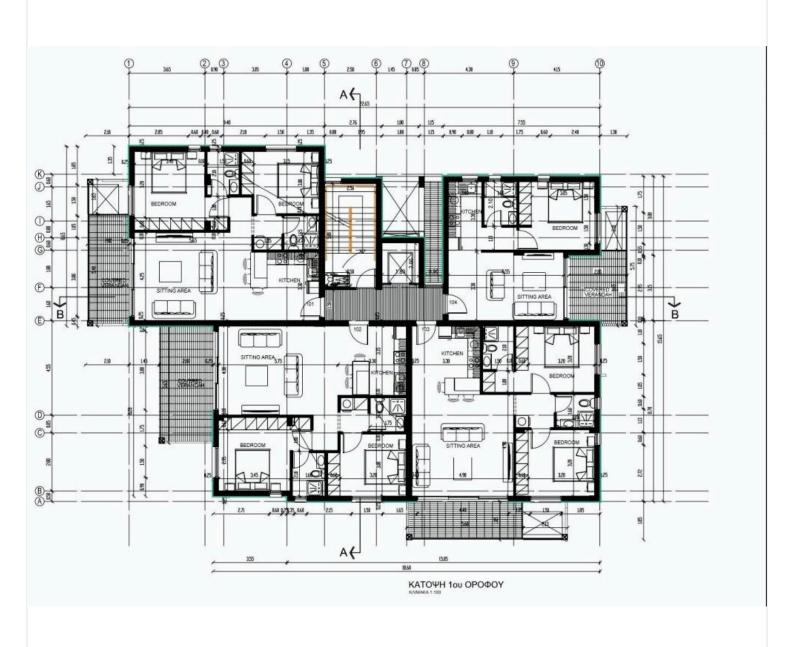

Each unit is equipped with provisions for air conditioning and electric heating, ensuring comfort year-round. Parking spaces include provisions for electric car charging, and the two-bedroom apartments are designed for underfloor heating, though the heat pump is not included. For added convenience, the building is equipped with CCTV and offers a gym on the ground floor.

The project is scheduled for delivery 30/03/2025
