Description

Luxurious two-bedroom apartment in one of the most popular areas of Strovolos (Stavros area) for rent.

In the apartment are placed quality materials such as ceramic granite in all areas except laminated parquet, high-quality sanitary ware, kitchens, lighting fixtures, etc. The apartment also features Bosch appliances (electric hob, oven, fridge, washing machine). Underfloor heating (with water pipes) and ceiling air conditioners are installed in the apartment and are operated by Heat Pump type low-energy machines. The boiling of hot water is achieved in three ways: solar heating, heating, and electricity. Sliding sunshades are placed on the verandas and the windows of the bedrooms.

The apartment has drinking water in the kitchen (which is not common in newly built constructions) as well as a Roof Garden with a garden.

The building has a controlled access system for the entrance and exit of cars with bar gates.
