Status	Under construction	Energy efficiency rating	A
Floor	1 / 4	Area	Nicosia, Agioi Omologites

Description

Ultra luxurious, energy efficiency A apartments located in the most prominent neighborhood in Nicosia city centre, just steps from Linear Park and within walking distance to the centre, supermarkets, cafes, banks, shops, and other amenities.

This block of apartments is comprised of nine, spacious apartments.

Since the project is next to the River and Linear Park, a centrally located pedestrian walkway has been created that begins from Gladstonos Street and meets the river park, allowing free access to all residents and guests towards the park and the project itself. Vehicle movement will only be done underground, eliminating non-natural elements and preserving the area's particular characteristic environment. There will be a central entrance accessible only to residents, and the project will offer a sauna & facility, a gym, a kids' playground and a full-time concierge to assist with all daily needs.

Both exterior and interior areas have been meticulously designed with a timeless approach and the highest of standards to meet and respect the architectural footprint and identity of the particular area. The accorded building specifications are of the highest quality, with luxury and branded materials.

The energy footprint of the entire project will be classified as Grade A' energy efficient, with an advanced photovoltaic energy system for each residential unit.

All residences and apartments will be delivered with the following:

- Grade A Energy Efficiency certificate
- Photovoltaic panels for each villa, apartment and communal areas
- False Ceilings with Lighting installed
- VRV Air conditioning will be installed in all rooms
- Floor central heating will be installed with a heat pump system
- All villas and apartments will have its own automation system
- Arclinea Kitchen
- High height ceilings
- Branded luxury materials for ceramics, sanitary and woodwork
- Floor to ceiling double glazed thermal windows
- Internal doors height 2.40m
- Interior design services
- Provision for EV charging station
- Gated Entrance

- Concierge Services
- Kids Playground
- Gym
- Sauna
- Yoga Lawns
- Walking Paths
